ASI announces VoiceXML integration for leading parts catalog pro

ASI is pleased to announce that it has successfully integrated the Wireless Application Protocol (WAP) into its leading electronic parts catalog product line. This enhancement will allow the parts catalog product to be accessed from anywhere at anytime via a cellular phone or PDA with Internet connectivity. This new feature will serve to extend the parts catalog, allowing users to do their work remotely without any loss of productivity.

About ASI

Actco Systems (ASI) is a full-service software company founded in 1991 to bring fleet maintenance and parts management solutions to the transportation industry. ASI is a member of the Actco Group, a diversified organization with hundreds of employees and an asset base of several hundred million dollars, including operating companies in automobile and truck sales and service, vehicle leasing, software, and real estate development.

ASI is sharply focused on the development and implementation of software products covering the entire vehicle Product Life Cycle. With our extensive knowledge of the transportation industry, ASI is well positioned and uniquely qualified to design and implement product-based solutions that address our customers' business issues in the areas of Product Configuration, Product Acquisition, Product Maintenance, Parts Acquisition, and Product Remarketing.

Today, ASI products are installed at more than 700 locations supporting the work of 5,000+ end users. With numerous success stories, we have established ourselves as leaders in the transportation industry and the first choice for customers requiring software products and support proven to work in the real world.

About Cetaris

Cetaris Software Inc. as a premier provider of enterprise asset management solutions helping organizations around the world reduce the cost and complexity associated with managing their fleet related assets. Their solution Fleet Assistant was built by fleet people for fleet people, whose evolution began on the shop floor with an understanding and emphasis on the needs of fleet owners, managers, service technicians and administrative personnel. Their solution continues to evolve addressing all the key requirements a business demands to optimize the performance and productivity of its fleet related assets. Consequently, today some of the world's largest; most sophisticated and efficient organizations depend on the Web Fleet Assistant to manage millions of their assets in more than 50 countries worldwide.

Headquartered in Toronto, Cetaris is more than just a software provider, combining exceptional human capital, with best of breed business processes and world class software tools to deliver a robust, turnkey solution.
