Muir's maintenance man takes home CFMS award

The following article was recently published by Today's Trucking magazine. Cetaris worked closely with Muir's Cartage last summer to implement Fleet Assistant, going live in early September. This article has been included on the Cetaris web site courtesy of Today's Trucking magazine.

TORONTO (May 7, 2003) - Ed Roeder's wrench-handling skills were officially recognized today, as the Muir's Cartage fleet manager was given the 2003 Volvo Trucks Canada Fleet Maintenance Manager of the Year award.

The award, which was handed out at the finale of the 40th annual Canadian Fleet Maintenance Seminar in Toronto, recognizes an outstanding Canadian fleet maintenance manager who has also demonstrated excellence in training, innovation, leadership, and overall contribution to the trucking industry.

Roeder, a 20-year industry veteran, manages the maintenance program for almost 1000 pieces of Muir's equipment. He also designed and oversees Muir's fully-equipped, multi-bay service facility at the company's Concord, Ont. headquarters. The facility has become the model for new facilities in the government and education sectors, the company says. Using a run-sheet integrated maintenance-tracking program, a 24-hour team of specialists keep down-time to a minimum, and have their own fleet of mobile service vehicles to quickly take care of the unexpected.

About Cetaris

Cetaris Software Inc. as a premier provider of enterprise asset management solutions helping organizations around the world reduce the cost and complexity associated with managing their fleet related assets. Their solution Fleet Assistant was built by fleet people for fleet people, whose evolution began on the shop floor with an understanding and emphasis on the needs of fleet owners, managers, service technicians and administrative personnel. Their solution continues to evolve addressing all the key requirements a business demands to optimize the performance and productivity of its fleet related assets. Consequently, today some of the world's largest; most sophisticated and efficient organizations depend on the Web Fleet Assistant to manage millions of their assets in more than 50 countries worldwide.

Headquartered in Toronto, Cetaris is more than just a software provider, combining exceptional human capital, with best of breed business processes and world class software tools to deliver a robust, turnkey solution.
